## SERVICES

### **Basic Professional Services of Funeral Director and Staff**      \$1500

This is the basic charge to each family we serve for our professional expertise in assisting them. It includes, but is not limited to, a proportionate share of the taxes, licenses, utilities and business expenses necessary to serve the public in a professional manner. Also, included in this charge is the consultation with the family, clerical and administrative services, preparation and filing of necessary permits, consultation with the clergy, cemetery, crematory or common carrier, planning the funeral, and placement of obituary notices. There will be an additional charge for the direction and supervision of each service requested or required. This fee for our basic services and overhead will be added to the total cost of the funeral arrangements you select. *(This fee is already included in our charges for packages, direct cremations, immediate burials, and forwarding or receiving remains.)*

### **Embalming**      \$900

Embalming is a chemical process, which provides temporary preservation of the body. Except in certain special cases, the law does not require embalming. Embalming may be necessary, however, if you select certain funeral arrangements, such as a funeral with viewing. If you do not want embalming, you usually have the right to choose an arrangement that does not require you to pay for it, such as direct cremation or immediate burial. *(There is no extra charge for autopsies, restorations, or organ/tissue donor bodies.)*

# MERCHANDISE

We are offering many different styles and prices of caskets and alternative containers to select from. Since many caskets appear similar in appearance, but may differ greatly in quality and construction, we offer the following in order to assist you in making an informed decision.

**Gasketed** These caskets are designed by the manufacturer to resist the entrance of air, water, and other outside elements. They may be constructed of varying gauges of steel, copper, or bronze.

**THERE IS NO SCIENTIFIC OR OTHER EVIDENCE THAT ANY CASKET WITH A SEALING DEVICE WILL PRESERVE HUMAN REMAINS.**

**Non-gasketed** These caskets are not designed by the manufacturer to resist the entrance of air, water or other outside elements. They may be constructed of metal, hardwood, or wood products covered with fabric. A complete list of the caskets offered will be provided with this general price list.

## **WARRANTY DISCLAIMER:**

**Our Funeral Home makes no representations or warranties regarding caskets or outer burial containers. The only warranties, expressed or implied, granted in connection with goods sold with this funeral service are the written warranties, if any, extended by the manufacturers thereof. No other warranties and, specifically, no implied warranties of merchantability and fitness for a particular purpose are extended by the seller.**

## Outer Burial Container List

In most areas of the country, state or local law does not require that you buy a container to surround the casket in the grave. However, many cemeteries require that you have such a container so that the grave will not sink in. Either a grave liner or a burial vault will satisfy these requirements.
